

5/18/11

Sabrina,

After discussing our options for daycare for our son, Bruce, we decided we would want him in a place each day that made him feel at home and comfortable. When we first met with you and Donna at your home/place of business, we knew that Kiddie Shack would be not only the best environment for him but he would also be taken care of by two caring and loving people five days a week.

Once we began bringing Bruce to you, our thoughts and feelings were and have been confirmed. You are loving and caring to Bruce each day, try to keep him engaged and happy, and are very committed to his health and well-being. You worked with him through his eating issues and inconsistent napping in the beginning and have a "whatever it takes" attitude toward each and every child. Additionally, you continue to work to make sure he his happy and comfortable by "figuring out" his personality and unique set of needs.

We also know we can count on you for constant communication, fun and unique activities and services, a consistent schedule for the children for our and their piece of mind and comfort, and a clean and safe environment. We head to work each day without a single worry about Bruce and what he is doing each day.

So, we are more than happy to recommend your daycare to anyone who needs a great place to take their child(ren) each work day.

All the best,

Bernadette and Jim Dubs
