

To whom it may concern,

As first time parents, Jason and I are very protective of our son as any parent should be. We started searching for daycares that were close to us and we came across Kiddie Shack. The very first moment we walked into the house, I immediately knew that I wanted Austin to be a part of that "family".

The ladies at Kiddie Shack are not only care takers but we consider them close friends. The communication between us is very open and I greatly appreciate any advice that they may offer. They demonstrate such love and patience with not only Austin but with all the other children that are there. I can truly say that I would much rather be a stay at home mom but knowing that Austin is getting all the attention, love and affection that I would give during the day, makes going to work a little easier.

I would highly recommend Kiddie Shack to anyone as I can honestly say that leaving Austin in the arms of such wonderful individuals simply warms my heart.

Sincerely,

Renaë & Jason
