

June 10, 2010

I went back to work when my son was 3 months old. I had not found childcare prior to his birth, so I was a little frantic in finding trustworthy childcare for him. When I first met Donna and Sabrina, I was impressed by the emphasis put on the importance of communication between them and the parents. I was also impressed by the curriculum that was in place for the kids. Kiddie Shack Daycare was the only daycare I interviewed (out of about 10-12 different locations) that felt that the achievement of the developmental milestones of an infant were important AND that working on the attainment of these was included in the day-to-day care. Sabrina and Donna have always been supportive of my son and his development, AND he loves them and all of the other kids.

I am not one who trusts easily, however I have never doubted the care that my son receives at Kiddie Shack Daycare. He has almost attended for one year, and he is at ease in their presence. Donna and Sabrina have encouraged the growth and maturation of my son both physically and mentally. I am thrilled with the care provided at Kiddie Shack Daycare and consider myself blessed to have found it!
