

To Prospective Parents:

Our daughter Olivia has been enrolled in Kiddie Shack since November 2008. We have been so pleased with the love, care and attention she is receiving from her two teachers Donna and Sabrina.

As a stay-at-home mom for 1 ½ years after Olivia was born my standards for childcare were pretty high. When I started back to work we initially had Olivia in a corporate daycare. After a few months and a new owner we decided that we wanted to put Olivia in a home care facility. After months of searching I found Kiddie Shack on-line. I was intrigued by the competitive tuition rates and the amazing information filled web-page. I felt that I had pretty much made the decision to enroll Olivia before we even met her teachers. Once we did meet them we were not disappointed. Donna and Sabrina are so attentive to the kids under their care. All of the kids adore them and it shows in the smiles on their faces. We love how Olivia gets not only great one on one time with Sabrina and Donna (she was potty trained within a month and a half with their help), but gets along so well with all her classmates.

We have never felt that we sacrificed anything coming from a corporate daycare system. The menu and curriculum is top notch. Olivia is learning so much and brings home the best art projects and worksheets that we can do together. It is hard to leave your child under someone else's watch while you go off to work. I have no fears when I'm at work. We have complete confidence in Sabrina and Donna. We know that our daughter is loved and safe and happy when we are at work.

Please feel free to have any parents contact me with any specific questions regarding your facility and services.

Sincerely,

Derrick and Dena Hill
