Sabrina & Donna:

We would like to extend our deepest gratitude for the care you give to Edie each and every day. At first, it was very difficult for us to get used to the idea of putting our child in the care of another during the day. You all have made the transition extremely smooth for us.

It's comforting to know that Edie is in a safe and loving place where she gets all the personal attention she needs. We would gladly recommend you to our friends and family because we know others will share the same experience.

Thank you for everything and keep up the great work!

Sincerely,

Kent & Kelly Bishop
